days.

Washington, Nov. 23.—Ordinary table salt in the sugar which they used was responsible for the illness of the midshipmen at the naval academy at Annapolis who were supposed to have been the victims of a spiteful piot conceived and executed in the culinary department of the school. Such was the conclusion reached following a chemical analysis of the sugar made here today in the laboratory of the surgeon general of the navy. Officials of the mavy department are inclined to believe that the salt found its way into the sugar purely by accident and that there was no plot at all.

There are now 22 cases of typhold fever at the academy and four of the patients are in a serious condition, patients are in a serious

East Weymouth, Mass. with the colony owned slaves and disposed of the colony owned slaves and disposed of the mills the same as of any other property.

Cases adjudicated in the Connecticut courts connected with the slave trade were told of and it was shown how about the time of the revolutionary war the sentiment against slavery began to manifest itself. Many clergymen maintained that slavery was wrong and ought to be abolished, and in consequence of the everlasting discussion kept up against the institution the first anti-slavery law was passed by the general assembly of 1784. This provided that all slaves born in bondage after that date should become free at the age of 25 years. born in bondage after that date should become free at the age of 25 years. This was one of the very first laws of its kind enacted in the states and it worked so well so that at the time slavery was done away with in this

ticut was Godfrey Maibone of Brook-lyn, who owned between fifty and six-ty slaves on his extensive estates in were told of and it was shown how that town. He was an English genabout the time of the revolutionary tleman, educated at Oxford, and it is war the sentiment against slavery be-said that descendants of his slaves were living in that section as late as 1874.—Bristol Press.

You Can Work Near a Window

in winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

Derection SMOKELES9 OLG TEALS

Absolutely smokeless and odorless you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of cil in the font. The fillercap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gall-ry cannot become wedged and can be unscrewed in an instant for rewicking. The Perfection Oil Heater is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.
